I. What is this product?

Type: An open-ended UCITS contractual fund licensed by the MFSA as a collective investment scheme pursuant to the Investment Services Act. The Company qualifies as a 'Maltese UCITS' in terms of the Investment Services Act (Marketing of UCITS) Regulations.

Term: The Fund launched on November 30, 2026 and has a maturity date of November 28, 2029 (the "Maturity Date"). The Fund Manager may not terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

Objectives: The Fund aims to guarantee Unitholders' initial investment and a fixed return of 2% per annum for the first year, a fixed return of 2.5% for the second year and a fixed return of 3% for the third year, in accordance with the terms of this Offering Supplement of the Fund. The Investment Objective will only be attained if the investment is held until Maturity Date.
The Fund Manager intends to seek to achieve the Fund's Investment Objective by directly investing predominantly in listed Euro denominated debt securities, whether corporate, supranational and/or sovereign, the majority of which shall be rated Investment Grade at the point of investment by the Fund. Without prejudice to this, the Fund Manager intends to invest the majority of the Fund's portfolio in fixed coupon Euro denominated corporate debt securities targeting a maturity of close to but less than three years, whilst the remaining portfolio is intended to comprise of EU sovereign zero coupon or fixed coupon debt securities.
The Fund Manager intends to invest the Fund's entire portfolio in debt securities as above-mentioned, however, the Investment Manager may invest up to 100% of the Fund's Net Asset Value in cash, cash equivalents or Money Market Instruments, particularly in preparation for final redemption on Maturity Date.
The Fund Manager may also utilise Financial Derivative Instruments (FDIs) (including OTC FDI's) for the purpose of efficient portfolio management purpose and hedging, and as such, FDIs will not be used for speculative purposes.
The Fund is actively managed and it is not managed with reference to a benchmark.
Unitholders may only subscribe to the Fund in the Initial Offering Period and no units will be offered after the lapse thereof. Units may be redeemed every two weeks as set out in the Offering Supplement.

Risk Factors: The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (See "What are the costs?" below).

Insurance Benefits and costs: No insurance products are offered through this product.

Sustainability: This financial product is classified as an Article 6 financial product under the Sustainable Finance Disclosure Regulation.The underlying investments of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Additional Information: The Fund's assets and liabilities are segregated from the assets and liabilities of other sub-Funds and of the Company. As a consequence, the assets of the Fund will not be available to meet the liabilities of another Fund of the Umbrella Fund.
BOV Asset Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate, or inconsistent with the relevant parts of the Prospectus.
This Key Information Document is specific to the Fund. The Prospectus and the annual and half-yearly financial reports are prepared for the entire Company.
The depositary of the fund is Bank of Valletta p.l.c. You can find the prospectus and the current annual and semi-annual reports, the current unit prices and further information about the fund free of charge at https://www.bovassetmanagement.com/.

Intended retail investor: The investor shares are available to Retail Investors looking for a capital guaranteed investment solution. This Fund is not suitable for investors who plan to withdraw their money before the Maturity Date.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The risk indicator assumes you keep the product until the maturity date November 28, 2029. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 1 out of 7, which is the lowest risk class. This classification is based on the volatility of the products share price returns over 5 years. The value of investments can go down as well as up and you may not get back the full amount you invested. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the product manufacturer to pay you.

Other substantial risks: Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. A more detailed description of risk factors that apply to this Fund is set out in the Prospectus and the Fund's Supplement.

You are entitled to recover 100% of your invested capital on the maturity date plus an additional fixed return of 2% on the first anniversary of the Launch Date and 2.5% on the second anniversary from the Launch Date and a final distribution of 3% on maturity date. However, this protection from future market performance will not apply if you cash in prior to the Maturity Date.

Performance Scenarios

What you will get from this product is fixed at maturity but on earlier exit, this will depend on how the market performs in the future. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product or a suitable benchmark over the last 10 years. Markets could develop very differently in the future. If you expect to exit your investment before the end of the recommended holding period, you have no guarantee, and you may have to pay additional costs, please refer to the "Composition of Costs" table for details. The return is only guaranteed if you maintain your investment until the Fund's Maturity Date. The stress scenario shows what you might get back in extreme market circumstances. The guaranteed return over the 3 years period of the fund shall be of EUR 750 if held until maturity.

Recommended holding period: 3 years **Example Investment: EUR 10,000**		**If you exit after 1 year**	**If you exit after 3 years (Recommended holding period)**
Minimum	There is no minimum guaranteed return if you exit before November 28, 2029. You could lose some or all of your investment.		
Stress	**What you might get back after costs**	**EUR 8,770**	**EUR 10,730**
	Average return each year	-12.3 %	2.4 %
Unfavourable	**What you might get back after costs**	**EUR 9,570**	**EUR 10,730**
	Average return each year	-4.3 %	2.4 %
Moderate	**What you might get back after costs**	**EUR 9,850**	**EUR 10,730**
	Average return each year	-1.5 %	2.4 %
Favourable	**What you might get back after costs**	**EUR 10,110**	**EUR 10,730**
	Average return each year	1.1 %	2.4 %

The Sub-Fund was launched in 2026 and has no prior performance data. The Performance Scenarios are illustrations based on simulated data which proxies the Fund's strategy. The figures shown include all the costs of the product itself, and include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

III. What happens if BOV Asset Management Limited is unable to pay out?

The Fund's ability to pay out would not be affected by the default of BOV Asset Management. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations. In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions, and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation scheme however is covered by a guarantee scheme from Bank of Valletta plc.

IV. What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- At maturity, you would recover the amount invested and the product would perform as shown in the moderate scenario.
- EUR 10,000 is invested

	If you exit after 1 year	**If you exit after 3 years**
Total costs	EUR 574	EUR 195
Annual cost impact (*)	5.7 %	0.6 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.0 % before costs and 2.4 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.
