The Company has appointed the Investment Manager to provide management and administration services to the Company and each of the Sub-Funds. The Investment Manager has delegated the administration function to the Administrator, a fund administrator, registrar and transfer agent recognised by the MFSA in terms of the Act. The Investment Manager may, subject to applicable rules, delegate the investment management in respect of certain Sub-Funds to a third party – in this regard, the Offering Supplement will contain the necessary information and disclosures on the said delegation, if any.

### **The Shares**

As the Company is an umbrella fund, the Directors are empowered through the Memorandum and Articles to create different Sub-Funds, constituted by one or more classes of Shares, and with each Sub-Fund representing a separate portfolio of the Company with its own distinct investment objective and policies and constituting a separate patrimony in terms of the SICAV Regulations. Accordingly, the assets and liabilities of each Sub-Fund of the Company shall be treated, for all intents and purposes of law, as a patrimony separate from the assets and liabilities of each other Sub-Fund of the Company.

Notwithstanding the foregoing, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation and in such circumstances the assets of one Sub-Fund may be exposed to the liabilities of another. There is no guarantee that the courts of any jurisdiction outside Malta will respect the limitations on liability associated with segregated account companies. The Directors will hold or cause to be held such separate accounts, records, statements and other documents as may be necessary to evidence the liabilities and assets of each Sub-Fund as distinct and separate from the assets and liabilities of all the other Sub-Funds. If classes of Investor Shares are issued in the same Sub-Fund, all assets and liabilities of each such class of Investor Shares would form part of the total assets and liabilities of the Sub-Fund of which such a class of Investor Shares forms part.

The Company may issue Accumulation Shares or Distribution Shares in respect of each Sub-Fund, details of which shall be contained in the respective Offering Supplement. In the case of Accumulation Shares, the whole of the Sub-Fund's net income (if any), after expenses, will be rolled back into the Sub-Fund and reflected in the price of Shares of such Sub-Fund. In the case of Distribution Shares, part or all of the net income (if any), after expenses, attributable to the Distribution Shares may be distributed to holders thereof by way of dividend in the Offering Supplement.

Detailed procedures of how to buy, sell and switch Shares are set out below in the section entitled "*Buying, Selling and Switching*". Further information about the Shares and the Company is also set out in the section entitled "*General Information*".

It is the current intention that the Sub-Funds will be marketed solely in Malta. However, such current intention may be changed at any time at the sole discretion of the Directors. Details of any other Member State(s) that the Sub-Funds will be marketed in will be accordingly reflected in an update to the respective Offering Supplement.

### **Offer Documents**

The Offer of Investor Shares in any Sub-Fund of the Company is governed by this Prospectus as the same may be amended and updated from time to time.

The Investment Manager has also issued an Offering Supplement and one or more KIIDs in respect of the existing Sub-Funds.

When Investor Shares in other Sub-Funds are issued in the future, this Prospectus will be accompanied by an Offering Supplement for each new Sub-Fund. The Investment Manager will also issue one or more KIIDs in respect of new Sub-Funds.

### **New Classes**

The Company may issue new Classes of Investor Shares which may be constituted as segregated Sub-Funds or new Classes of Investor Shares within existing Sub-Funds, which may be designated in various currencies. The assets of the said Sub-Funds may be managed utilising different strategies or methodologies, or by investing in different markets.

This Prospectus is to be at all times accompanied by an Offering Supplement for the relevant Sub-Fund which is the subject of the Offering. Offerings in other Sub-Funds may be made again in the future. Information about Sub-Funds other than the ones referred to in this Prospectus may be obtained from the Administrator.

### **Dividend Policy**

Except where otherwise stated in the Offering Supplement of any particular Sub-Fund, it is not envisaged that any income or gains will be distributed by the Company to its Shareholders, and the Company will accumulate all income received from its investments, which income will be reflected in the NAV of the Investor Shares.

Under the Memorandum and Articles, and where provided for under the relevant Offering Supplement, the Directors may declare dividends out of a Sub-Fund from the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses, provided that the amount of dividends so declared should be determined in conformity with any requirements imposed by the MFSA in terms of the Act, the MFSA Rules and the Licence Conditions.

Where applicable, the Company will be obliged and entitled to deduct an amount in respect of Malta tax from any dividend payable to a Shareholder in any Sub-Fund who is or is deemed to be taxable in Malta, and to pay such sum to the Malta tax authorities – please refer to the [Section entitled "Taxation" below] for further details.

Shareholders should note that the NAV per Share of certain classes of Investor Shares in a Sub-Fund may decrease over time as the Company declares and pays dividends to the holders of such Investor Shares.

## **The Offering**

Subject only to the maximum number of Investor Shares specified in the Memorandum and Articles which are at the relevant time available for issue, not being exceeded, the Company may, at its sole discretion, accept Subscription Applications for Investor Shares at any time.

Investor Shares will be offered by means of Offering Supplements at the relevant Initial Offering Price during the Initial Offering Period, and thereafter, on each Subscription Day at the Subscription Price.

The Company is entitled to close the Offering Period for any class of Investor Shares in a Sub-Fund at its sole discretion.

See the related Offering Supplement for details.

## **Minimum Holding in Sub-Funds**

The Offering Supplement of each Sub-Fund will give details of the minimum number or value of Investor Shares that shall be held in each Sub-Fund. The Directors may waive the Minimum Holding at their discretion.

The Minimum Holding requirement applies at all times to all Shareholders, however no obligations shall arise upon a Shareholder should the NAV of a holding reduce to less than the Minimum Holding as a result of fluctuation of the underlying assets.

## **Minimum Initial Investment for Investor Shares in the Sub-Funds**

The Offering Supplement will give details of the Minimum Initial Investment for Investor Shares in any Sub-Fund, subject to the Minimum Holding limit described above. The Directors may waive the Minimum Initial Investment at their discretion.

## **Minimum Additional Investment**

The Offering Supplement will also give details of the Minimum Additional Investment for Investor Shares in any Sub-Fund, subject to the Minimum Holding limit described above. The Directors may waive the Minimum Additional Investment at their discretion.

## **Subscription Applications**

Investor Shares may be acquired on any Subscription Day, as is described in this Prospectus.

Subscription Applications for Investor Shares may be submitted to the Company at the office of the Administrator, whether directly or through Authorised Distributors, in the prescribed form, a copy of which is available from the Administrator or from an Authorised Distributor.

Subscription Applications can only be accepted if they are received in original by the Company at the office of the Administrator, within the deadlines stated in the related Offering Supplement. Further, the subscription amounts are to be received in Cleared Funds by not later than the relevant Settlement Date. See the part entitled "Purchase of Shares" under the Section [entitled "Purchase, Exchange and Transfer of Investor Shares" for further details.]

### **Redemption**

Investor Shares may be redeemed on any Redemption Day, as is described in this Prospectus.

A redemption request must be received in original by the Company at the office of the Administrator with such prior notice before the relevant Redemption Day as may be stated in the Offering Supplement for the related Sub-Fund. Redemption requests received after such date will be processed on the following Redemption Day, provided that the Directors may accept, at their sole discretion, a shorter notice.

### **Accounting Currency**

For the purposes of the compilation of the annual financial statements of the Company, the reporting currency for the Company shall be the Accounting Currency.

## **INVESTMENT OBJECTIVES, POLICIES & RESTRICTIONS**

The Company is an investment vehicle designed specifically to achieve different investment objectives through its individual Sub-Funds. Each Sub-Fund will adopt a distinct strategy with different levels of expected risk and return, in respect of one or more markets or investment instruments, or of one or more groups of markets or investment instruments.

Details on the investment objectives, policies and restrictions of each Sub-Fund are found in the relevant Offering Supplement.

The Directors may, at their sole discretion, alter any of the Sub-Funds' investment policies and investment restrictions, provided that any material change thereof shall be notified to Shareholders of the respective Sub-Funds. Any changes to the investment policies and restrictions as well as any other changes to this Prospectus require the prior approval of the MFSA. At any time, the investment objective of the respective Sub-Fund will only be changed with the approval of the Shareholders of that Sub-Fund.

### **Adherence to Investment Objectives, Policies and Restrictions**

Each Sub-Fund shall observe its Investment Objectives, Policies and Restrictions. The investment restrictions are subject to the qualifications and certain exemptions contained in the MFSA Rules and in the Licence Conditions. Any additional investment restrictions for particular Sub-Funds will be formulated by the Directors at the time of the creation of such Sub-Funds and will be stated in the relevant Offering Supplement.

The Directors may from time to time impose such further restrictions as shall be compatible with or in the interest of the Shareholders, including in order to comply with the laws and regulations of the countries where Shareholders are resident.

### **Breaches of Investment Restrictions**

The following shall apply in the event of inadvertent breach of the Sub-Fund's investment restrictions:

- i. without prejudice to the duty of the Sub-Fund to comply with its investment restrictions and to ensure that such restrictions are not contravened as a direct result of any acquisition of its underlying assets, if one or more of a Sub-Fund's investment restrictions are at any time contravened for reasons beyond the control of the Investment Manager or the Scheme or as a result of subscription rights, the Investment Manager or the Scheme shall take such steps as are necessary to ensure a restoration of compliance with such restriction(s) as soon as is reasonably practicable having regard to the interests of the unit-holders and, in any event, within the period of six months beginning on the date of discovery of the contravention of such restriction(s).

- ii. A contravention of an investment restriction which may arise due to the circumstances outlined in (i) above is not considered a breach of a licence condition and is not subject to the requirement to notify the MFSA. However, where the contravention is not remedied by the Investment Manager or Scheme within the maximum six month period stipulated in (i) above, a breach of the

applicable MFSA rules is deemed to arise and the relevant notification requirements apply.

## **General Investment Restrictions**

### Ancillary Liquid Assets

The Sub-Funds may hold ancillary liquid assets irrespective of its investment objective and policy.

### Investments in Transferable Securities and Money Market Instruments

1.1.1 A Sub-Fund may not invest more than 10% of its assets in Transferable Securities and Money Market Instruments other than those referred to in Section 0 above.

1.1.2 A Sub-Fund shall not invest more than 5% of its assets in Transferable Securities or Money Market Instruments issued by the same body.

This 5% limit may be raised to a maximum of 10% of a Sub-Fund's assets. Provided that the total value of securities held in bodies in which it invests more than 5%, is less than 40%. This limitation does not apply to deposits and OTC-derivative transactions made with financial institutions subject to prudential supervision.

For the purposes of determining the 40% limit, the Transferable Securities and Money Market Instruments referred to in the next two paragraphs of this section 4.2.2 below, shall not be taken into account.

The limit of 5% in the first paragraph of this section 4.2.2 may be raised to a maximum of 35% if the Transferable Securities or Money Market Instruments are issued or guaranteed by a Member State, or by its local authorities, by a non-Member State or by public international bodies to which one or more Member States belong. Provided that this limit may be waived in accordance with section 4.2.3 below.

The limit of 5% in the first paragraph of this section 4.2.2 may be raised to a maximum of 25% in the case of certain bonds when these are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. In particular, sums deriving from the issue of these bonds shall be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. Provided that when a Sub-Fund invests more than 5% of its assets in the bonds referred to above and issued by one issuer, the total value of these bonds may not exceed 80% of the value of the assets of a Sub-Fund.

1.1.3 By way of derogation from sections 4.2.2., 4.7.1 and 4.7.2, the MFSA may authorize a Sub-Fund to invest in accordance with the principle of risk-spreading up to 100% of its assets in different Transferable Securities or Money Market Instruments issued or guaranteed by any Member State, its local authorities, a

non-Member State or public international bodies of which one or more Member States are members, provided it is satisfied that unit-holders in the Sub-Fund have protection equivalent to that of unit-holders in a Sub-Fund complying with the limits laid down in 4.2.2., 4.7.1 and 4.7.2.to 4.7.4. The following conditions shall apply:

- i. the Sub-Fund shall be required to hold securities from at least six different issues, but securities from any one issue may not account for more than 30% of its total assets;
- ii. the Sub-Fund shall be required to disclose in the Prospectus or Offering Supplement the names of the States, local authorities or public international bodies issuing or guaranteeing securities in which it intends to invest more than 35% of its assets.; and
- iii. the Scheme shall be required to ensure that the Prospectus or Offering Supplement and any promotional material shall include a prominent statement drawing attention to such authorization and indicating the States, local authorities and/ or public international bodies in the securities of which it intends to invest or has invested more than 35% of its assets.

#### Deposits with Credit Institutions

Not more than 20% of the assets of a Sub-Fund shall be kept on deposit with any one body.

#### Transactions in Financial Derivative Instruments

1.1.4 A Sub-Fund may transact in Financial Derivative Instruments as long as:

- i. the transaction involves Financial Derivative Instruments of the kind specified in section 3 para (vii);
- ii. the transaction in the Financial Derivative Instrument does not cause a Sub-Fund to diverge from its investment objective.

1.1.5 A Sub-Fund's maximum exposure to one counterparty in an OTC-derivative transaction shall not be more than 5% of the value of the assets of a Sub-Fund. This limit may be increased to 10% in respect of OTC-derivative transactions made with a counterparty which is a credit institution as described in Section 3 para (vi). The exposure per counterparty of an OTC-derivative shall be measured on the basis of the maximum potential loss incurred by the Scheme if the counterparty defaults.

1.1.6 The exposure to one counterparty in an OTC-derivative transaction may be reduced where the counterparty provides the Sub-Fund with collateral which satisfies the criteria laid out in section 9 to Appendix VI of the Investment Services Rules.

1.1.7 The Scheme may net the mark-to-market value of its OTC-derivative positions with the same counterparty, thus reducing the Scheme's exposure to its counterparty, provided that the Scheme has a contractual netting agreement with its counterparty which creates a single legal obligation such that, in the event of the counterparty's failure to perform owing to default, bankruptcy, liquidation or any other similar circumstance, the Scheme would have a claim to receive or an obligation to pay only the net sum of the positive and negative mark-to-market values of included individual transactions.

1.1.8 Derivative transactions which are performed on an exchange where the clearinghouse meets the following conditions shall be deemed to be free of counterparty risk:

- i. is backed by an appropriate performance guarantee;
- ii. is characterised by a daily mark-to-market valuation of the derivative positions; and
- iii. is subject to at least daily margining.

1.1.9 A Sub-Fund may employ techniques and instruments for the purpose of efficient portfolio management which include the use of Transferable Securities and Money Market Instruments. These operations may concern the use of Financial Derivative Instruments.

1.1.10 The reference in section 4.4.6 to techniques and instruments which relate to Transferable Securities and which are used for the purpose of efficient portfolio management shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- i. they are economically appropriate in that they are realised in a cost-effective way;
- ii. they are entered into for one or more of the following specific aims:
  - a. reduction of risk; or
  - b. reduction of cost; or
  - c. generation of additional capital or income for the Scheme with a level of risk which is consistent with the risk profile of the Scheme and the risk diversification rules laid down in sections 4.2.2, 4.7.1 and 4.7.2 to 4.7.4; and
- iii. their risks are adequately captured by the risk management process of the Scheme or its Investment Manager.

Techniques and instruments which comply with the criteria set out in this section 4.4.7 and which relate to Money Market Instruments shall be regarded as techniques and instruments relating to Money Market Instruments for the purpose of efficient portfolio management.

1.1.11 A Sub-Fund shall ensure that its global exposure relating to Financial Derivative Instruments does not exceed the total net value of its portfolio. The exposure is calculated taking into account:

- i. the current value of the underlying asset;
- ii. the counterparty risk;
- iii. future market movements; and
- iv. the time available to liquidate positions.

The Scheme's overall risk exposure may not exceed 200% of its NAV on a permanent basis.

The Scheme's total/global exposure relating to Financial Derivative Instruments should be assessed in line with the requirements included in the Risk Management Process of the Scheme.

1.1.12 Where a Sub-Fund invests in Financial Derivative Instruments as part of its investment policies and within the limits established by section 4.7.2 to 4.7.4, the exposure to the underlying assets shall not exceed in aggregate the limits in

sections 4.2.2, 4.7.1 and 4.7.2 to 4.7.4. The exposure to the underlying assets should be calculated using the Commitment Approach as indicated in the Risk Management Process of the Scheme.

1.1.13 Subject to MFSA approval, where the Scheme invests in an index based Financial Derivative Instrument, provided the relevant index meets the criteria in SLC 4.14 of the Investment Services Rules and section 4.8 for approval of indices by the MFSA, these investments do not have to be combined to the limits laid down in 4.2.2, 4.7.1 and 4.7.2 to 4.7.4.

1.1.14 Where a Transferable Security or Money Market Instrument embeds a Financial Derivative Instrument, this derivative transaction shall be taken into account for the purposes of complying with the limits in sections 4.4.1 and 4.4.6 to 4.4.10. The exposure to the underlying assets should be calculated using the VAR Approach as indicated in the Risk Management Process of the Scheme. In cases where this approach is not relevant or technically impossible, due to the complexity of the concerned Financial Derivative Instrument, the Scheme may use an approach based on the maximum potential loss linked to that Financial Derivative Instrument.

The reference in this paragraph to Transferable Securities embedding a Financial Derivative Instrument shall be understood as a reference to financial instruments which fulfil the criteria set out in SLC 4.4 of the Investment Services Rules and which contain a component which fulfils the following criteria:

- i. by virtue of that component some or all of the cash flows that otherwise would be required by the Transferable Security which functions as host contract can be modified according to a specified interest rate, financial instrument price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, and therefore vary in a way similar to a stand-alone Financial Derivative Instrument;
- ii. its economic characteristics and risks are not closely related to the economic characteristics and risks of the host contract; and
- iii. it has a significant impact on the risk profile and pricing of the Transferable Security.

Money Market Instruments which fulfil one of the criteria set out in SLC 4.5(i) and all the criteria set out in 4.5(ii) of the Investment Services Rules and which contain a component which fulfils the criteria set out in the second paragraph of this investment limit shall be regarded as Money Market Instruments embedding a Financial Derivative Instrument.

A Transferable Security or a Money Market Instrument shall not be regarded as embedding a Financial Derivative Instrument where it contains a component which is contractually transferable independently of the Transferable Security or the Money Market Instrument. Such a component shall be deemed to be a separate financial instrument.

1.1.15 A Sub-Fund shall only enter into transactions for direct investment in Financial Derivative Instruments or for efficient portfolio management/ hedging by means of Financial Derivative Instruments with counterparties who:

- i. are not the Investment Manager or Custodian of the Scheme; and
- ii. form part of a group whose head office or parent company is licensed, registered or based in Malta, any member of the OECD, the EU or the EEA

and is subject to prudential supervision in accordance with provisions equivalent to Directive 93/6/EEC or Directives 73/239/EEC and 79/267/EEC as amended; and

iii. have a credit rating of at least A (Standards & Poor's) or A2 (Moody's) or such other rating acceptable to MFSA.

In the case of OTC transactions, such counterparty shall satisfy the Investment Manager or the Scheme that it has:

i. agreed to value the transaction at least weekly; and

ii. will close out the transaction at the request of the Investment Manager or the Scheme at fair value.

1.1.16 When a Sub-Fund holds a Financial Derivative Instrument which automatically or at the Scheme's discretion, requires cash settlement on maturity or exercise, the Scheme does not necessarily have to hold the underlying instrument as cover. In such case, the following categories may be acceptable as cover:

i. cash;

ii. liquid debt instruments (e.g. government bonds of first credit rating) prudently adjusted by appropriate haircuts (minimum of 5%); and

iii. other highly liquid assets which are correlated with the underlying of the Financial Derivative Instruments, prudently adjusted by appropriate haircuts (minimum 5%).

The level of cover should be calculated using the VAR Approach as indicated in the Risk Management Process of the Scheme. The assets held for cover should consist solely of instruments listed in section 3 and should be compliant with the investment policies of the Scheme.

For the purposes of the above, the instruments held as cover should be considered as 'liquid' when they can be converted into cash at no more than 7 business days at a price closely corresponding to the current valuation of the financial instrument. It has to be ensured that the respective cash amount is at the Scheme's disposal at the maturity / expiry or exercise date of the Financial Derivative Instrument.

1.1.17 When the Scheme holds a Financial Derivative Instrument which automatically or at the counterparty's discretion, requires the physical delivery of the underlying financial instrument, on maturity or exercise, the Scheme has to hold the underlying instrument as cover at all times. However, the Scheme may alternatively cover the exposure with sufficient liquid assets provided that the following requirements are satisfied:

i. the risks of the underlying can be appropriately represented by another financial instrument; and/ or

ii. the underlying financial instrument is highly liquid; and/or

iii. the liquid assets held as cover can be used at any time to purchase the underlying financial instrument to be delivered; and/ or

iv. the additional risk associated with the transaction referred to in paragraph (iii) above are adequately covered by the Risk Management Process of the Scheme or the Investment Manager.

The level of cover should be calculated using the Commitment Approach as indicated in the Risk Management Process of the Scheme. The assets held for cover should consist solely of instruments listed in section 3 and should be compliant with the investment policies of the Scheme.

For the purposes of the above, the instruments held as cover should be considered as 'liquid' when they can be converted into cash at no more than 7 business days at a price closely corresponding to the current valuation of the financial instrument. It has to be ensured that the respective cash amount is at the Scheme's disposal at the maturity / expiry or exercise date of the Financial Derivative Instrument.

The MFSA may authorise a Sub-Fund to employ techniques and instruments relating to transferable securities and money market instruments under the conditions and within the limits which the MFSA lays down provided that such techniques and instruments are used for the purpose of efficient portfolio management. These operations concern the use of derivative instruments. The criteria for the use of such techniques and instruments shall be agreed with the MFSA in advance.

### Risk Management Process

The investment limits as applicable in respect of the Sub-Funds' Risk Management Process outlined in the Investment Services Rules from 5.26 to 5.33 are more fully described in the Risk Management Process of the Scheme which is available upon request.

### Uncovered Sales

The Scheme may not carry out uncovered sales of Transferable Securities, Money Market Instruments or other financial instruments referred to in Section 3 para (v), (vii) and (viii). Uncovered sales are all transactions in which the Scheme is exposed to the risk of having to buy securities at a higher price than the price at which the securities are delivered, thus making a loss, and the risk of not being able to deliver the underlying for settlement at the time of the maturity of the transaction.

### Single Issuer Exposures

1.1.18 Notwithstanding the individual limits laid down in the first paragraph of section 4.2.2, and sections 4.3 and 4.4.2, 5.6, 5.12, and 5.14, the Scheme may not combine:

- i. investments in Transferable Securities or Money Market Instruments issued by; and
- ii. deposits made with; and
- iii. counterparty exposures arising from OTC-derivative transactions undertaken with; and
- iv. other exposures arising from OTC-derivative transactions relating to;

a single body in excess of 20% of its Net Assets.

1.1.19 The limits provided for in the first, second, fourth and fifth paragraphs of section 4.2.2, sections 4.3 and 4.4.2 and 4.7.1 may not be combined, and thus investments in Transferable Securities or Money Market Instruments issued by the same body or in deposits or Financial Derivative Instruments made with this body carried out in accordance with the above-mentioned shall under no circumstances exceed in total 35% of the assets of a Sub-Fund.

1.1.20 Companies which are included in the same group for the purposes of consolidated accounts as defined in Directive 83/349/EEC in accordance with recognized international accounting rules, are regarded as a single body for the purpose of

calculating the limits contained in sections 4.2.2, 4.3, 4.4.2, 4.7.1 and 4.7.2 to 4.7.4.

- 1.1.21 Subject to approval by MFSA, a Sub-Fund may effect a cumulative investment in Transferable Securities and Money Market Instruments within the same group up to a limit of 20%.

#### Investments in Shares and Bonds for Tracking an Index

Without prejudice to the limits laid down in sections 4.9.7 to 4.9.9, the limits laid down in the first and second paragraphs of section 4.2.2 may be raised to a maximum of 20% for investment in shares and/or debt securities issued by the same body, where the investment policy of the Scheme as stated in this most recently published Prospectus, is to replicate the composition of a certain stock or debt securities index which is recognised by the MFSA, on the following basis:

- i. its composition is sufficiently diversified in that it complies with the risk diversification rules in this Investment Limit;
- ii. the index represents an adequate benchmark for the market to which it refers, in that the index provider uses a recognised methodology which generally does not result in the exclusion of a major issuer of the market to which it refers; and
- iii. it is published in an appropriate manner, in that the index fulfils the following criteria:
  - a. it is accessible to the public; and
  - b. the index provider is independent from the Scheme.Point (b) shall not preclude index providers and the Scheme forming part of the same economic group, provided that effective arrangements for the management of conflicts of interest are in place.

The above 20% limit may, subject to MFSA approval, be raised to a maximum of 35%, where it proves to be justified by exceptional market conditions, in particular in regulated markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

The reference in this INVESTMENT LIMIT to "replicate the composition of a certain stock or debt securities index" shall be understood as a reference to the replication of the composition of the underlying assets of an index, including the use of Financial Derivative Instruments or other techniques and instruments as referred to in sections 4.4.6 and 4.4.7.

#### Investments in Other UCITS and / or Other Collective Investment Schemes

- 1.1.22 A Sub-Fund may acquire the units of a UCITS and/or other collective investment schemes referred to in section 3 para (v), provided that no more than 20% of its assets are invested in units of a single UCITS or other collective investment scheme.

- 1.1.23 Investments made in units of collective investment schemes other than UCITS, may not exceed, in aggregate, 30% of a Sub-Fund's assets.

- 1.1.24 Subject to MFSA approval. where a Sub-Fund has acquired units of UCITS and/or other collective investment schemes, the assets of the respective UCITS or other

- 1.1.25 When the Scheme invests in the Units of another UCITS and/or other collective investment schemes that are managed, directly or by delegation, by the Investment Manager or by any other company with which the Investment Manager is linked by common management or control, or by a substantial direct or indirect holding, the Investment Manager or other company may not charge subscription or redemption fees on account of the Sub-Fund's investment in the units of such other UCITS and/or collective investment schemes.
- 1.1.26 Where a commission is received by the Investment Manager by virtue of an investment in the Units of another Scheme, that commission shall be paid into the property of the Sub-Fund.
- 1.1.27 When a Sub-Fund invests a substantial portion of its assets in the units of another UCITS and/or other CISs, the maximum level of management fees that may be charged to such underlying schemes will, currently, not exceed 2.50% per annum of the net assets of such schemes.
- 1.1.28 The Scheme or the Investment Manager, taking into account all of the schemes which the latter manages, shall not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of the issuer.
- 1.1.29 The Scheme may acquire no more than:
  - i. 10% of the non-voting shares of any single issuing body;
  - ii. 10% of the debt securities of any single issuing body;

  - iv. 10% of the Money Market Instruments of any single issuing body.

The limits laid out in (ii), (iii) and (iv) above, may be disregarded at the time of acquisition if at that time, the gross amount of the debt securities or of the Money Market Instruments, or the net amount of the securities in issue, cannot be calculated.

- 1.1.30 Subject to MFSA approval. the restrictions in 4.9.7 and 4.9.8 above may be waived as regards:

  - iv. shares held by the Scheme in the capital of a company incorporated in a non-Member State investing its assets Mainly in securities of issuing bodies having their registered offices in that State, where, under the legislation of that State, such a holding represents the only way in which the Scheme can invest in the securities of issuing bodies of that State. - 4.7.4, 4.9.1 to 4.9.4 and 4.9.6 to 4.9.8 . Where the limits set in 4.2.2, 4.3, 4.4.2, 4.7.1, 4.7.2 to 4.7.4, 4.9.1 to 4.9.4 and 4.9.6 re exceeded, SLCs 5.2, 5.48 and 5.49 of the Investment Services Rules shall apply mutatis mutandis; and

#### **Alterations to the Investment Objectives, Policies and Restrictions**

Any changes to the investment objective of any Sub-Fund shall require the consent in writing of the holders of three-fourths ( $\frac{3}{4}$ ) of the issued Investor Shares of the relevant Sub-Fund, or the sanction of an extraordinary resolution passed at a separate general meeting of the holders of the Investor Shares of such Sub-Fund in terms of the

Memorandum and Articles.

The change in the investment objectives should only become effective after all pending redemptions linked to the change in the investment objective have been satisfied. Any applicable redemption fee shall be waived accordingly.

The Directors may however, at their sole discretion, alter the investment policies and restrictions as may be applicable to the Company or to a Sub-Fund, provided that:

- (1) any material alterations to the investment policies and restrictions as may apply to the Company as a whole shall be notified to all the Shareholders of the Company;
- (2) any material alterations to the investment policies and restrictions as may apply to a Sub-Fund shall be notified to the Shareholders holding Investor Shares in the particular Sub-Fund;

**THE COMPANY'S INVESTMENT PROGRAMMES ARE SPECULATIVE AND ENTAIL A NUMBER OF RISKS. MARKET RISKS ARE INHERENT IN ALL SECURITIES AND INVESTMENTS. THE PRACTICES OF ENGAGING IN DERIVATIVE INSTRUMENTS MAY, IN CERTAIN CIRCUMSTANCES, INCREASE THE ADVERSE IMPACT TO WHICH THE INVESTMENT PORTFOLIO OF A PARTICULAR SUB-FUND MAY BE SUBJECT. NO ASSURANCE CAN BE GIVEN THAT THE COMPANY'S INVESTMENT OBJECTIVE WILL BE REALISED. AN INVESTOR MAY LOSE SOME OR ALL OF HIS INVESTMENT.**

## **RISK FACTORS**

The discussion below is of general nature and is intended to describe various risk factors which may be associated with an investment in the Investor Shares in a Sub-Fund to which the attention of investors is drawn. Investors should also see the section of the relevant Offering Supplement entitled "Risk Factors" for any additional risks particular to the Investor Shares in that Sub-Fund.

The risk factors discussed in this Section and in the relevant Offering Supplement are not intended to be an exhaustive list and there may be other considerations that should be taken into account in relation to an investment. Investors should consult their own advisors before considering an investment in the Investor Shares in a particular Sub-Fund. The factors of relevance to the Investor Shares in a particular Sub-Fund will depend upon a number of interrelated matters including, but not limited to, the nature of the Investor Shares. No investment should be made in the Investor Shares in a particular Sub-Fund until careful consideration of all those factors has been made.

### **Market Fluctuations**

Investment in the Sub-Funds should be regarded as a long-term investment. There can be no guarantee that the investment objective of the Sub-Funds will be achieved. The Sub-Funds' investments are subject to normal market fluctuations and the risks inherent in all investments and there are no assurances that capital appreciation will occur.

The price of Shares and the income from them (if any) can, from time to time, go down as well as up and investors may not realise the amount of their initial investment. In particular, deduction of the initial charge and the exit fee (the latter where applicable) means that if an investor withdraws from the investment in the short-term he may not get back the amount he invested.

### **Exchange Rate Fluctuations**

Currency fluctuations between the currency of denomination of a class of Shares of a Sub-Fund, and:

- (i) the investor's currency of reference, and,
- (ii) the currency of the underlying investments of a Sub-Fund

may adversely affect the value of investments and the income derived therefrom.

### **Geographical Risk**

The value of a Sub-Fund's investments may be negatively affected by uncertainties, such as political developments, social and economic instability, changes in government policies, taxation, high inflation, interest rates, exchange controls and other currency repatriation restrictions, restrictions on foreign investment as well as other developments in the laws or regulations of some or all of the countries in which a Sub-Fund may invest which may not be highly developed. These factors may pose difficulties for a Sub-Fund to enforce its legal rights pursuant to the investments made in such countries. The relative political instability in some of the jurisdictions a Sub-Fund is targeting for investment may also have an adverse impact on the value of investments in such jurisdictions.

### **Political Risk**

Emerging markets present different political conditions to those of the more developed markets and could possibly present less political stability. Emerging markets may be undergoing substantial political reform and investment may be made in countries that at

the particular moment of the investment may be in a period of transition where the consequences of reform may not be entirely clear.

### **Specific risks in respect of investments in Collective Investment Schemes**

Investment by a Sub-Fund in other collective investment schemes implies that its investment prospects and performance are closely linked to the prospects and performance of the underlying collective investment schemes in which it invests.

### **Investment in specific sectors of the market**

Investments made Mainly in transferable securities and/or in collective investment schemes that invest Primarily in a specific market, such as real estate or telecommunications, implies that the performance of such securities/collective investment schemes is affected by the performance of such specific market.

### **Derivative Risk**

The Sub-Funds may transact in Financial Derivative Instruments for the purposes of efficient portfolio. For the risks associated with the use of such instruments, please refer to section "Risks associated with transactions in FDIs.

### **Erosion of capital**

When an investor redeems part of his/her holding, he/she should be aware that these redemptions will be made from the sale of Shares and may result in an erosion of capital.

The re-allocation of full or part of the management fee from the income account to the capital account, may increase the income available for distribution to Shareholders in such Sub-Funds but may constrain or erode capital growth,

### **SFDR – Legal Risk**

The series of legal measures (including SFDR) requiring firms that manage investment funds to provide transparency on how they integrate sustainability considerations into the investment process with respect to the investment funds they manage (the EU sustainable finance action plan) are being introduced in the European Union on a phased basis and some elements (for example supporting regulatory technical standards) are subject to implementation delays. The Investment Manager seeks to comply with all legal obligations applicable to it but notes there may be challenges in meeting all the requirements of these legal measures as they are introduced. The Company may be required to incur costs in order to ensure compliance with these new requirements as part of the initial implementation phase and to incur further costs as the requirements change and further elements are introduced. This could be the case in particular if there are adverse political developments or changes in government policies as the implementation phase progresses. These elements could impact the viability of the Sub-Funds and their returns.

### **ESG Data Reliance**

The scope of SFDR is extremely broad, covering a very wide range of financial advisors and financial market participants with regard to the integration of Sustainability Risks and the consideration of adverse sustainability impacts in their processes and the provision of sustainability-related information with respect financial products. It seeks to achieve more transparency regarding how financial market participants integrate Sustainability Risks into their investment decisions and consideration of adverse

sustainability impacts in the investment process. Data constraint is one of the biggest challenges when it comes to sustainability related information to end-investors, especially in the case of principal adverse impacts of investment decisions, and there are limitations on sustainability and ESG-related data provided by market participants in relation to comparability.

## **ESG Investing**

Applying ESG and sustainability criteria in the investment process may result in the exclusion of securities in which the Company might otherwise invest. Such securities could be part of the benchmark against which the Company is managed or be within the universe of potential investments. This may have a positive or negative impact on performance and may mean that the Company's performance profile differs to that of funds which are managed against the same benchmark or invest in a similar universe of potential investments but without applying ESG or sustainability criteria.

Furthermore, the lack of common or harmonised definitions and labels regarding ESG and sustainability criteria may result in different approaches by managers when integrating ESG and sustainability criteria into investment decisions. This means that it may be difficult to compare funds with ostensibly similar objectives and that these funds will employ different security selection and exclusion criteria. Consequently, the performance profile of otherwise similar funds may deviate more substantially than might otherwise be expected. Additionally, in the absence of common or harmonised definitions and labels, a degree of subjectivity is required and this will mean that a fund may invest in a security that another manager or an investor would not.

The Investment Manager currently does not apply any ESG criteria for the Company or any of its Sub-Funds. As a result, the Company does not apply negative screening to exclude specific sectors or companies based on ESG criteria.

The Company does not aim to achieve long-term capital growth integrating an ESG approach. But this situation may change depending on the regulatory and legal framework. In this case this Prospectus will be updated.

It should also be noted that the Taxonomy Regulation will in due course provide a common taxonomy for identifying economic activities as environmentally sustainable within the European Economic Area. However, the scope of the Taxonomy Regulation will initially be limited to six environmental objectives (and so will not cover the entire universe of ESG objectives) and is not currently expected to be used universally, outside of the European Economic Area. For the purposes of the Taxonomy Regulation, it should be noted that the investments underlying the Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

## **Risk Profiles of the Sub-Funds**

The risk profiles of the Sub-Funds are determined through the calculation of the Synthetic Risk and Reward Indicator ("SRRI"), which is included in the relevant Sub-Fund's KIID. The SRRI is based on the volatility of each Sub-Fund, with the volatility being estimated using the past returns of the Sub-Fund gathered from a sample period covering the last 5 years of the life of the Sub-Fund and, in case of distribution of income, shall be measured taking into account the relevant earnings or dividend payoffs. In the event that past performance for a particular share class is not available, the SRRI is calculated using simulated historical data as fully disclosed in the respective KIID.

## **General**

The Sub-Funds may be suitable for investors who view collective investment schemes as a convenient way of participating in investment markets. It may also be suitable for investors seeking to attain defined investment objectives. However, investors in the Sub-Funds must be willing to accept certain risks to their capital as detailed in this section. In addition, in view that the Sub-Funds are viewed as being medium to long term investment vehicles, the Sub-Funds may be suitable for investors who are able to set aside a certain amount of capital for at least three to five years. Any investor who is in any doubt about the risks of investing in any of the Sub-Funds should consult his or her own financial advisor.

## **Financial Derivative Instruments and their Risks**

### General Information

The Sub-Funds may transact in FDIs for the purposes of efficient portfolio management. The term "efficient portfolio management" refers to transactions that are entered into with the aim of reducing risk, reducing cost or generating additional capital for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund as described in this Prospectus and the respective Offering Supplement.

It is the current intention that the types of FDIs that the Sub-Funds may transact in include forward foreign exchange contracts, futures, purchased and/or written options (both listed and OTC), exchange rate swaps and interest rate swaps. It is intended that the Sub-Funds would, in due course, also transact in credit default swaps, total return swaps and contracts for differences. This in view that the use of the latter three types of FDIs is subject to their inclusion in the Risk Management Process. The intentions referred to in this paragraph may, at the discretion of the Investment Manager, be changed at any time subject that such changes are duly reflected in an updated version of the Prospectus, or the relevant Offering Supplement, or via an addendum thereto. Should the need arise, when transacting in FDIs, the Company may be required to collateralize the Company's assets, whether by way of outright collateral transfers or by way of security interests thereon, in order to secure the obligations undertaken by the Company.

FDIs are highly specialised instruments that require investment techniques and risk analyses different from those associated with equity and debt securities. There can be no guarantee or assurance that the use of FDIs will meet or assist in meeting the investment objectives of a Sub-Fund.

FDIs do not always perfectly or even highly correlate or track the value of the securities, rates or indices they are designed to track. Consequently, the use of FDIs may not always be an effective means of, and sometimes could be counter-productive to, the relevant Sub-Fund's investment objective.

The prices of FDIs, including futures and options, are highly volatile. Payments made pursuant to swap agreements may also be highly volatile. Price movements of futures and options contracts and payments pursuant to swap agreements are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. In the case of foreign exchange swaps and forward foreign exchange contracts, being OTC instruments, investors are advised that the counterparties to such instruments are subject to the risk of non-performance by the counterparties, including risks relating to the financial soundness and creditworthiness of the counterparties.

In the case of listed put or call options, a Sub-Fund's ability to close out its position as a purchaser or seller of a listed put or call option is dependent, in part, upon the liquidity of the option market.

Where a Sub-Fund enters into swap arrangements or a forward foreign exchange contract, they will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Sub-Funds could experience delays in liquidating the position and may incur significant losses. There is also a possibility that ongoing derivative transactions will be terminated unexpectedly as a result of events outside the control of the Investment Manager, for instance, bankruptcy, supervening illegality or a change in the tax or accounting laws relative to those transactions at the time the agreement was originated.

A conflict of interest may arise due to the fact that FDIs may be transacted with Bank of Valletta plc, in view that the Investment Manager is a subsidiary of Bank of Valletta plc.

The use of FDIs in relation to the Sub-Funds is not intended to increase the risk profiles of the Sub-Funds.

#### Details on FDIs currently intended to be used by the Sub-Funds

##### *Forward Foreign Exchange Contracts*

A forward foreign exchange contract is a contractual agreement between a buyer and a seller to exchange one currency for another at a specified date in the future at a price (exchange rate) fixed in advance. The contract holders are obliged to buy or sell the currency at a specified price, at a specified quantity and on a specified future date.

Currency hedging may be utilised to hedge share classes denominated in currencies other than the base currency of the Sub-Fund. See Section 0 below entitled 'Hedging at Share Class Level'.

##### *Futures*

A futures contract is traded on an organised exchange. A futures contract, like a forward contract, is an agreement between a buyer and a seller to exchange one currency for another at a specified date in the future at a price (exchange rate) that is fixed on the purchase date. However, there are two main differences between these two types of instruments. One difference is that the default risk on futures is significantly reduced by the futures exchange guaranteeing to indemnify counterparties against credit or default risk. Another difference relates to the contract price which in a forward contract is fixed over the life of the contract whereas a futures contract is marked-to-market daily.

##### *Options*

An option is a contract that gives the holder of the option the right, but not the obligation, to buy or sell an underlying asset at a prespecified price for a specified time period. Options are classified as either call or put options. A call option gives a purchaser of the option, the right but not the obligation, to buy the underlying security from the writer of the option at a prespecified exercise price on a prespecified date. A put option gives the purchaser of the option the right, but not the obligation, to sell the underlying security to the writer of the option at a prespecified price on a prespecified date.

A listed option is traded on a regulated exchange where the terms of each option are standardized by the exchange. The contract is standardized so that underlying asset,

quantity, expiration date and strike price are known in advance unlike over-the-counter options which are not traded on exchanges and thus allow for the customization of the terms of the option contract.

The benefits to exchange-traded options are the liquidity of the options, standardized contracts, quick access to prices and the use of clearing houses by exchanges. In the case of OTC options, such benefits linked to listed options might not present to participants the necessary flexibility that OTC options have. With OTC options, both hedgers and speculators can benefit from avoiding the restrictions that normal standardized exchanges place on options. Such flexibility might thus allow participants to achieve their desired position more precisely and also more cost effectively. With listed options, the use of clearing houses guarantees the option contract will be fulfilled, while with over-the-counter options the ability to exercise the contract is dependent on the ability of the other party to meet the obligation.

#### *Exchange Rate Swaps*

An exchange rate swap is an agreement negotiated between two parties to exchange the return on cash for the return on varying currencies.

#### *Interest Rate Swaps*

An interest rate swap is an agreement negotiated between two parties to exchange interest rate cash flows, calculated on a notional amount, at specified dates during the life of the swap. The notional amount is used only to determine the payments under the swap and is not exchanged. The payment obligation of each party is calculated using a different interest rate, typically with one party paying a floating interest rate in return for receiving a fixed interest rate, either at regular intervals during the life of the swap or at the maturity of the swap. Interest rate swaps could be used by the Sub-Fund to enable its interest rate sensitivity profile to be changed faster and more cheaply than through the use of physical cash markets.

Any costs and expenses incurred when transacting in FDIs will be attributable to the particular Sub-Fund and in the case of share class specific the related expenses are incurred by that specific share class.

#### Risk Management Process

The Investment Manager uses a Risk Management Process which enables it to monitor, and measure and manage at any time as frequently as appropriate, the risks of the Sub-Funds' derivatives positions and their contribution to the overall risk profile of the Sub-Funds.

The Investment Manager will, on the request of shareholder provide supplementary information relating to the quantitative limits that apply in the risk management of the UCITS, the methods chosen to this end and to the recent evolution of the main instrument categories' risks and yields.

## **BUYING, SELLING AND SWITCHING**

- c) any person who is, or has acquired such shares on behalf of or for the benefit of, a U.S. Person without the consent of the Directors; or
- d) any person who does not supply any of the information or declarations required hereunder within seven (7) days of a request to do so being sent by the Directors; or
- e) any person or persons in circumstances which (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other person or persons whether connected or not, or any other circumstances appearing to the Directors to be relevant) in the opinion of the Directors might result in the Company or any Member incurring any liability to taxation or suffering pecuniary or administrative disadvantages which the Company or such Member might not otherwise have incurred or suffered;

the Directors shall be entitled to give notice in writing (in such form as the Directors deem appropriate) to such person or persons requiring him or them to transfer such Shares to a person who is qualified or entitled to own the same or request in writing the redemption of such Shares in accordance with the Articles of Association of the Company. If any person, upon whom such a notice is served as aforesaid does not within thirty (30) days of the date of such notice, transfer such Shares or request in writing the Company to repurchase the shares, he shall be deemed forthwith upon the expiration of thirty (30) days to have so requested the redemption of all of his Shares which are the subject of such notice, whereupon the Directors shall be entitled to appoint any person

to execute such documents as may be required for the purpose of the redemption in line with the Articles of Association of the Company.

If the Directors determine that the continuing ownership of Shares by a particular Shareholder would cause an undue risk of adverse tax or other consequences to the Company or any of its Members, or if the Directors otherwise determine that such ownership of Shares is not in the best interests of the Company or falls outside the risk appetite of the Company, the Company may compulsorily repurchase all or part of the Shares of such Shareholder at any time in accordance with the procedures set out in the Prospectus relating to compulsory redemption of Shares.

Shares of any class may be redeemed on the authority of the Directors to comply with the equalisation arrangements (if any) established in the Prospectus.

Such compulsory redemptions will take place at the prevailing Redemption Price on the day that such redemption takes place.

### Lump Sum Investment and Monthly Investment Plan

Acquisition of Shares in each Sub-Fund may take one of the following forms.

#### *Lump Sum Investment*

Investment may be made in the form of a lump sum ("Lump Sum Investment"). The minimum initial Lump Sum Investment for each Sub-Fund shall be specified in the respective Offering Supplement. Additional investments in any Sub-Fund are not subject to a minimum.

#### *Monthly Investment Plans (where available as indicated in the respective Offering Supplement)*

Monthly investment plans ("Monthly Investment Plan") are applicable as specified in the respective Offering Supplement. In the case of those Sub-Funds having both Accumulator and Distributor Shares, the Monthly Investment Plan is applicable on Accumulation Shares only. The Dealing Day for Monthly Investment Plans is the 15th day of each month (or, if this is not a Business Day, the next Business Day thereafter), unless specified otherwise in the relevant Offering Supplement.

Investment in a Monthly Investment Plan is to be made through a regular monthly contribution. Regular monthly contributions are subject to the minimum figure as specified in the respective Offering Supplement and may be made in the Base Currency (or other currency equivalent).

A Monthly Investment Plan can be established by completing the relevant section of the Subscription Application, together with the investor arranging for a regular debit of his or her bank account which proceeds shall have to be received by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) by not later than the 10th day of each month (or, if this is not a Business Day, the next Business Day thereafter), unless specified otherwise in the relevant Offering Supplement. The Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) will arrange for any such sums received in a currency other than the Base Currency to be converted into such base currency at prevailing exchange rates. Any payments received after that date will be invested in the following month. Pending monthly contributions will be held in a designated client money account by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) and will not accrue interest between the date of collection and the date of investment.

## Contract Notes, Statements, Valuations and Share Certificates

Contract notes containing full details of the investment will be issued for Lump Sum Investments only and will be dispatched within one (1) Business Day from the Dealing Day on which the order to purchase Shares is effected. In addition, investors will be sent, on a six (6) monthly basis, a valuation of their holdings as at 30 April and 31 October.

Contract notes will be mailed to the registered address held at the Investment Manager's office and, in the case of joint holders, such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s.

In the case of investments via a Monthly Investment Plan, contract notes will not be issued but investors will be sent every six (6) months, as at 30 April and 31 October, a statement giving full details of the transactions made during the relative six-month period together with a valuation of such holdings as at these dates.

## Registrations

All Shares will be registered and an entry in the register of Shareholders will be conclusive evidence of ownership. No share certificates will be issued, unless specifically requested by lump sum investors only at the time of application. The uncertificated form allows the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) to effect redemption instructions without delay and the Company therefore recommends that investors maintain their Shares in an uncertificated form.

If certificated Shares are requested, a Share certificate will be dispatched either to the investor or his nominated agent (at his risk) normally within twenty-eight (28) days of completion of the registration process.

Any change to a Shareholder's personal details, or loss of certificates must be notified to the Company immediately in writing. The Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) reserves the right to request indemnity or verification before accepting such notification.

## **Procedure to Sell Shares**

### Redemption Instructions

Shareholders may, at any time, irrevocably request, via signed instructions to the Investment Manager, the redemption of their shares in any Sub-Fund.

Redemption instructions may be made on a Redemption Form or in writing in a form acceptable to the Company (whether directly or indirectly through the Investment Manager, the Administrator and/or any Licensed Financial Intermediary, as applicable).

### Cut off time for receipt of redemption instructions

The cut off time for receipt of applications for the redemption of Shares of each Sub-Fund shall be specified in the relevant Offering Supplement.

### Payment of Redemption Proceeds

Payment of the redemption proceeds will be made by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) in the base currency of the relevant Sub-Fund or other currency equivalent within fourteen (14) Business Days of the relevant Dealing Day. Payment will be made by bank transfer to an account held in the name of the registered holder as duly instructed in the redemption instructions. Neither the Company, the Investment Manager nor the Administrator shall be responsible for any delay in transmission.

In the case of a share held jointly by two or more persons, the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) shall cause the redemption payment to be made by bank transfer to the account held in the name of any one or more of the joint holders as duly instructed in the redemption instructions.

Payment of the redemption proceeds as specified above shall be deemed as having been effected to all joint holders and shall discharge the Company of its obligation towards the other joint holder/s.

Redemption proceeds will be rounded down to the nearest unit or currency unit, and the related Sub-Fund will retain the benefit of such rounding.

Any applicable bank charges incurred will be borne by the registered holder/s.

Redemption proceeds may be paid by bank draft upon request and at the discretion of the Administrator. Any applicable bank charges incurred will be borne by the registered holder/s.

Net redemption proceeds following a redemption, including compulsory redemption as set out in this Prospectus and the Articles, shall only be paid when the Shareholder has submitted all documents required under the Prospectus and applicable law to the satisfaction of the Company and the Company is otherwise satisfied that the payment of such net redemption proceeds is in accordance with applicable law.

#### Contract Notes

Contract notes containing full details of the redemption will be issued for both Lump Sum Investments and Monthly Investment Plan redemptions. Contract notes will be dispatched within one (1) Business Day from the Dealing Day on which the order to redeem shares is effected.

Contract notes will be mailed to the registered address held at the Investment Manager's office and, in the case of joint holders, such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company, the Investment Manager and the Administrator of any of their obligations towards the other joint holder/s.

#### Deferral of Redemption of Shares

The Directors may limit the total number of Shares which may be redeemed on any Dealing Day to ten percent (10%) of the outstanding Shares in a Sub-Fund. In such an event, the Directors will reduce all valid redemption instructions *pro rata* to the number of Shares requested to be redeemed. The balance of such Shares will be redeemed on the next Dealing Day, subject to the Directors' same power of deferral until the original redemption instructions have been satisfied.

Shareholders may not revoke or withdraw redemption instructions delivered to the Company (whether directly or indirectly through the Investment Manager and/or the

Administrator, as applicable), even if the Directors elect to exercise their power of deferral.

#### Suspension of Redemption

Should it appear to the Administrator that the effect of a Redemption Notice will result after the Redemption, in the Shareholder holding in aggregate less than the Minimum Holding, the Administrator shall immediately inform the applicant that the request for redemption has been suspended until the Notice is amended either to result in observance of the Minimum Holding of Investor Shares, after redemption, or to request the redemption of all of the outstanding Investor Shares in the name of the Shareholder.]

#### Temporary suspension of Net Asset Value calculations and of issues, exchanges and redemptions of Investor Shares

The Directors may declare a temporary suspension of any one or more of:

- (1) the determination as at any Valuation Point of the Net Asset Value of a Sub-Fund (and as a result the Net Asset Value per Investor Share);
- (2) the issue of Investor Shares in a Sub-Fund;
- (3) the exchange of Investor Shares in a Sub-Fund; and
- (4) the redemption of Investor Shares in a Sub-Fund, during any period during which circumstances exist in which the Directors consider that to permit determination of Net Asset Value and/or to permit issues, redemptions and/or exchanges of Shares, as the case may be, would not be in the best interests of the particular Sub-Fund, as the case may be, and its Shareholders as a whole.

The Company at any time may, but shall not be obliged to, temporarily suspend, as at any Valuation Point, the determination of the Net Asset Value of any class of Investor Shares and the sale and redemption of such shares, in the following instances:

- (1) during any period (other than holiday or customary weekend closings) when any market is closed which is the main market for a significant part of the investments comprised in a Sub-Fund to which such class of Investor Shares relates, or in which trading thereon is restricted or suspended; or
- (2) during any period when as a result of political, economic, military or monetary events or any other cause or circumstance outside the control, responsibility and power of the Company, disposal by the Company of investments which constitute a substantial portion of the assets of a Sub-Fund to which such class of Investor Shares relates is not practically feasible without being seriously detrimental to the interests of shareholders; or
- (3) during any period when for any reason, in the opinion of the Directors, a fair price of investments comprised in a Sub-Fund to which such class of Investor Shares relates cannot be reasonably, promptly or accurately ascertained by the Company; or
- (4) during any period when there is a breakdown of the means of communication normally used for the valuation of Investments comprised in the Sub-Fund or if for any reason the value of any asset of the Company may not be determined as rapidly and as accurately as required; or
- (5) during any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments comprised in the Sub-Fund

to which such class of shares relates cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or

- (6) during any period when the proceeds of sale or redemption of such shares in the Company cannot be transmitted to or from the Company's account; or
- (7) as a result of exchange restriction or other restrictions affecting the transfer of funds, transactions on behalf of the Company are rendered impracticable, or purchases, sales, deposits and withdrawals of the Company's assets cannot be effected at the normal rates of exchange; or
- (8) an Extraordinary Resolution to wind up the Company has been passed.

No Investor Shares will be issued during periods when issues of Investor Shares are suspended, no Investor Shares will be exchanged during periods when exchanges are suspended, and no Investor Shares will be redeemed during periods when redemptions are suspended. In such a case, a Shareholder may, subject to the below, withdraw its Share application or redemption or exchange request, as appropriate, provided that a withdrawal notice is actually received by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) before the suspension is terminated.

Unless withdrawn, Share applications and redemption and exchange requests, as appropriate, will be acted upon on the first Dealing Day after the suspension is lifted at the relevant Subscription Price or Redemption Price (as the case may be) prevailing on that Dealing Day (as the case may be). An application for Investor Shares may not be withdrawn if issues of Investor Shares are suspended on a date following the Dealing Day upon which the application for such Investor Shares is deemed to be effective. The Net Asset Value will not be calculated during periods when the determination of the Net Asset Value of a Sub-Fund is suspended.

Notice of the suspension and its termination will be given to all Shareholders and Subscribers. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible. [If the redemption instructions are not withdrawn the Shares will be redeemed on the first Dealing Day following termination of the suspension.]

Notice of any suspension or postponement of the calculation of the Net Asset Value of any Sub-Fund will be published as the Directors may from time to time determine and will also be notified to the Malta Stock Exchange, and the MFSA without delay.

Any fees due to any service providers that are based on the Net Asset Value of a Sub-Fund shall accrue on the basis of the latest available Net Asset Value of the related Sub-Fund.

#### Frequent Trading

Investment in the Sub-Funds is intended for long term purposes only. The Directors will take reasonable steps to seek to prevent excessive and/or short term trading or similar abusive practices. Excessive and/or short term trading into and out of a Sub-Fund can disrupt or impair portfolio investment strategies, are likely to unnecessarily increase expenses and might negatively impact investment returns for all Shareholders, including long term Shareholders who do not generate these expenses. The Directors reserve the right to reject any redemption, purchase or conversion request delivered by any investor or group of investors if the Directors believe that such redemption, purchase or conversion request disrupts or impairs the trading activity in the portfolio(s) and accounts(s) of a Sub-Fund.

Investors need to be aware that there are practical restraints in both determining the policy which is appropriate in the interest of long term investors and in applying and enforcing such policy.

The right to convert or exchange Investor Shares is not intended to facilitate excessive and/ or short term trading. The Directors reserve the right to reject any conversion order for any reason without prior notice.

### **Procedure to Switch Shares**

Switching of Shares is available between all Sub-Funds and between different Share classes within the same Sub-Fund.

#### Switching between Sub-Funds

Shareholders may switch Shares in one Sub-Fund into Shares in another Sub-Fund and may also switch Shares from one Share class to another Share class within the same Sub-Fund, in accordance with the procedure set out in the relevant Offering Supplement.

#### Cut off time for receipt of switching instructions

The cut off time for receipt of applications for the switching of Shares shall be specified in the relevant Offering Supplement.

#### Contract Notes

The Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) will dispatch contract notes within one (1) Business Day following the Dealing Day on which the order to switch is fully effected. New Share certificates, if requested, will only be issued on receipt of any Share certificate in respect of the original Shares.

Contract notes will be mailed to the registered address held at the Investment Manager's office and, in the case of joint holders such delivery shall be deemed as sufficient delivery to all joint holders and shall discharge the Company, the Investment Manager and the Administrator of their obligation towards the other joint holder/s.

#### General

The number of shares to be issued as new Shares on switching shall be determined by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) in accordance (or as nearly as may be in accordance) with the following formula: -

$$NS = \frac{[A \times B \times C]}{D}$$

where:

NS = the number of new Shares which will be issued;  
A = the number of original Shares to be switched;  
B = the redemption price of such original Shares on the relevant Dealing Day;  
C = the rate of exchange determined by the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) for switching the Base Currency of the original Shares into the Base Currency of the new Shares, if applicable; and

D = the issue price of the new Shares on the relevant Dealing Day (including any commissions payable).

Upon a switch, the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) shall cause assets or cash representing the value of new Shares as defined above to be allocated to the class of Shares comprising the new Shares.

### **Dividend Distributions (applicable to Distribution Shares)**

Details of dividend distributions, where applicable, shall be provided in the relevant Offering Supplement.

### **Hedging at share class level**

In the case where the Base Currency and the currency of denomination of a share class differ, the Investment Manager may implement a hedging strategy to seek to minimise any exchange rate losses between the said currencies.

Any financial instruments used to implement such strategies with respect to one or more share classes shall be considered to be assets/liabilities of the Sub-Fund as a whole, but will, for the purposes of determining the net asset value of the share class, be allocated to the relevant class of shares.

It is currently intended that the Investment Manager will make use of forward foreign exchange contracts in order to hedge the currency exposure. (No other techniques or instruments will currently be used for hedging currency exposures).

Purchases of the hedged share class are converted into the Base Currency at the spot rate.

It is the Investment Manager's intention that the hedging transaction will be rolled at least on a monthly basis, crystallising any gain or loss on the hedge.

The gain or loss on the share class hedge will always form part of the respective daily net asset value per share calculation. However, it remains effectively uninvested in the Sub-Fund's assets until the gain or loss is realised, which occurs when the hedge is rolled over.

Whilst aiming to reduce the currency risk of the hedged share class, any hedging strategy adopted will not necessarily eliminate all the currency risk exposure and, as a result, there may be a mismatch between the Base Currency and hedged share class.

Irrespective of whether the Base Currency is declining or increasing in value relative to the currency of denomination of the share class which is denominated in a different currency, the hedging strategy may either substantially protect shareholders in the hedged share class against a decrease in the value of the Base Currency, but it may also preclude the same shareholders from benefiting from an increase in value of the Base Currency.

Given that there is no segregation of liabilities between share classes, there is a risk that, under certain circumstances, currency hedging transactions in relation to one share class could affect the Net Asset Value of the other share class of the Sub-Fund.

### **Languages and Methods of Communication**

### Languages in which the Shareholder may communicate

Shareholder requests may be sent either in the Maltese or the English language at the registered office of the Administrator. Unless otherwise indicated by the Shareholder on specific requests, the Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) shall revert in the English language. The Company (whether directly or indirectly through the Investment Manager and/or the Administrator, as applicable) may request that such requests be sent in writing and may record telephone conversations for security purposes.

### **Investor Compensation Scheme**

Pursuant to the Investor Compensation Scheme Regulations (S.L. 370.09, Laws of Malta) (for the purpose of this paragraph, the "Regulations"), "Investors" as defined in the Regulations may benefit from investor protection. The benefits of this scheme shall be made available in the case where MFSA make a determination as to whether compensation can be made under the Regulations.

### **Conflicts of Interest**

In line with the MFSA Rules, the Investment Manager has implemented a Conflict of Interest Policy aimed at identifying and managing potential or possible conflicts of interest. In this regard, the Investment Manager has adopted effective systems and controls aimed at either preventing the possibility of such conflicts of interest from adversely affecting the interest of its clients and thus managing such conflicts of interest, or where this is not possible, to clearly disclose the nature and/or sources of such conflicts of interest to clients prior to effecting an investment in the Company. A copy of the Conflict of Interest Policy may be obtained from the offices of the Investment Manager.

## **TAXATION**

### **General**

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation applicable to the acquisition, holding and disposal of Shares as well as distributions, if any, made by the Company.

The following is a summary of the anticipated tax treatment applicable to the Company and to its Shareholders in Malta. This information which does not constitute legal or tax advice, refers only to Shareholders who do not deal in securities in the course of their normal trading activity.

The information below is based on tax law and practice applicable in Malta at the date of this Prospectus. Shareholders of the Company are reminded that tax law and practice and the levels of tax relating to the Company, its Sub-Funds and the Shareholders, may change from time to time.

### **The Company**

The tax regime for collective investment schemes in Malta is based on the classification of Sub-Funds into prescribed or non-prescribed Sub-Funds in terms of the conditions set out in the Collective Investment Schemes (Investment Income) Regulations, 2001 (as amended). In general, a prescribed Sub-Fund is defined as a resident Sub-Fund which has declared that the value of its assets situated in Malta amount to at least eighty-five per cent of the value of the total assets of the Sub-Fund.

In respect of Sub-Funds which are classified as non-prescribed Sub-Funds for Maltese income tax purposes, a tax exemption at the Sub-Fund level applies on all the income/gains (except for income from immovable property situated in Malta, if any).

Investment income (other than investment income paid by another licensed collective investment scheme) as defined in the Income Tax Act received by a prescribed Sub-Fund is subject to a withholding tax and such income cannot be received by the Sub-Fund gross of tax. The applicable rate of withholding tax is currently 15% on local bank interest and 10% on investment income (as defined) other than local bank interest. The Company (whether in respect of prescribed or non-prescribed Sub-Funds) is not entitled to a credit or to a reSub-Fund of any tax at source deducted from income received by the Company. Other income and capital gains (except for income from immovable property situated in Malta, if any) remain exempt in the hands of prescribed Sub-Funds.

In respect of both prescribed and non-prescribed Sub-Funds, capital gains, dividends, interest and any other income from foreign securities held by the Company may be subject to tax imposed by the country of origin concerned and such taxes may not be recoverable by the Company or its Shareholders under Maltese domestic tax law.

### **The Shareholders**

Capital gains realised on transfers or redemptions by non-residents of Shares in the Company, whether in respect of units in prescribed or non-prescribed Sub-Funds, are exempt from Maltese income tax subject to the satisfaction of certain statutory conditions.

Capital gains realised by resident Shareholders of the Company on the redemption, liquidation, or cancellation of units in non-prescribed Sub-Funds may be subject to a 15% withholding tax and the obligation to deduct such tax at source lies on the

Company. However, the resident unit holder has the option to request the Company not to effect the deduction of the said 15% withholding tax in which case the investor would be required to declare the capital gains in his income tax return and will be subject to tax at the normal rates.

Switching of units from a non-prescribed sub-fund to another sub-fund (whether prescribed or non-prescribed) of the Company constitutes a taxable transfer for income tax purposes. However, no tax is chargeable at the point of the switch. When switched securities are eventually disposed of, the calculation of the taxable capital gains will take into account any chargeable capital gains or allowable capital losses arising from all intermediate switches as well as from the final transfer.

Capital gains realised on direct transfers (if any) of securities in non-prescribed funds to third parties must be declared by the transferor in his tax return and tax is charged thereon at normal rates, so however that on an eventual redemption, the gain on redemption is calculated without reference to the direct intermediate transfer.

Capital gains realised by resident investors by way of a transfer or redemption of shares in prescribed sub-funds would be exempt from Maltese tax for as long as the Shares are listed on the Malta Stock Exchange.

In respect of those sub-funds which distribute dividends from the Company's distributable profits, whether these are reinvested or otherwise, to Shareholders (both individual and corporate) who are both domiciled and ordinarily resident in Malta for tax purposes are chargeable to tax under Maltese law.

However, in terms of the Income Tax Act, dividends from Malta source taxed profits or profits received by the Company from the foreign income account of another Maltese company, should inter alia not be subject to a withholding tax or to further tax in the hands of the Shareholders. In the case of distributions from the Company's Final Tax Account (income allocated to such an account would include inter alia "investment income" as defined in the Income Tax Act received by a prescribed sub-fund) no further tax is incurred in the hands of the shareholders but the shareholders should not be entitled to claim a credit or refund of any tax directly or indirectly paid on such profits.

On the other hand, distributions from the Company's foreign source profits allocated to the Company's Untaxed Account to a Maltese resident person (other than a company) or to a non-resident person who is owned and controlled by, directly or indirectly, or who acts on behalf of an individual who is ordinarily resident and domiciled in Malta, should inter alia be subject to a withholding tax of 15%. The withholding tax should be deducted by the Company and the dividend would be passed on to the Shareholders net of the tax. The Maltese resident investor (other than a company) may opt to declare such dividends paid from the Untaxed Account of the Company in the income tax return and in that case the 15% withholding tax would be available as a credit (or refund, as the case may be) against the investor's tax liability.

Distributions from the Company's equalisation reserve are treated as dividends for income tax purposes and should be subject to a withholding tax of 15% when paid to a Maltese resident person (other than a company). The Maltese resident investor (other than a company) has the option to declare such a dividend in the income tax return with the 15% withholding tax being available as a credit (or a refund, as the case may be) against the investor's tax liability.

## **Exchange of information**

The Company may be obliged in terms of the Savings Directive (Council Directive 2003/48/EC of 3 June 2003) to report inter alia the following information to the Maltese Authorities when paying interest payments (as defined in the Savings Directive) to an individual (being the beneficial owner) resident in a Member State other than Malta:

- the identity and residence of the beneficial owner;
- the name and address of the paying agent;
- the account number of the beneficial owner (or identification of the debt claim);
- information concerning the interest payment.

Interest payments include distributed income by a UCITS derived from interest payments and income realised on the sale/refund/redemption of securities in a UCITS that invests more than 25% (as from 1 January 2011) of its assets in debt claims (as defined in the Savings Directive).

## **AML-CFT, SANCTIONS AND DATA PROTECTION**

### **Anti-Money Laundering and Counter Terrorist Financing Measures**

The Company is a subject person in terms of the Prevention of Money Laundering Act (Cap. 373 of the Laws of Malta) (the "**PMLA**") and the Prevention of Money Laundering and Funding of Terrorism Regulations (S.L. 373.01 of the Laws of Malta (the "**PMLFTR**"). Consequently, it is required to comply with the obligations which arise from the PMLFTR and the Implementing Procedures issued by the Financial Intelligence Analysis Unit (the "**Implementing Procedures**").

The PMLFTR issued in terms of the PMLA, flesh out the obligations, policies and procedures to be adopted by subject persons in the course of their business activities. They also provide high level requirements for the (i) identification and verification of the investor and, where applicable, the beneficial owner, (ii) the establishment of the purpose and intended nature of the business relationship, including obtaining information (and where required, documentation) in relation to the source of funds and source of wealth of the investor and building a risk profile of the investor (iii) internal record keeping, (iv) reporting of suspicious transactions, and (v) internal and external reporting of suspicious transactions.

All prospective investors will be subject to customer due diligence in accordance with the policies and procedures established by the Company from time to time. Investors will also be subject to ongoing customer due diligence checks in fulfilment of the Company's ongoing monitoring obligation. The level and type of customer due diligence and the level of verification required may vary according to the investor's money laundering ("**ML**") and funding of terrorism ("**FT**") risk profile.

The specific requirements include, *inter alia*, the fundamental requirement to conduct suitable investor due diligence, including the requirement to identify and verify the investor, which extends, for any 'non-individual' investor, to the ultimate beneficial owner(s) of the monies invested. The Company has appointed the Administrator to assist in the performance of Investor due diligence. In this respect, the Administrator may request information from the prospective investor or the investor, in order to satisfy its and the Company's regulatory obligations.

The Company is also obliged to obtain information on the purpose and intended nature of the business relationship to be in a position to establish the business and the AML risk profile of the investor and to obtain information on the investor's source of wealth and source of funds. Through such checks, the Company should be able to verify whether the funds being invested by the prospective investor or investor have been obtained from legitimate sources. In fulfilment of its ongoing monitoring, the Company will also assess all additional subscriptions, redemption and transfer of shares requests.

The Company (and/or its delegates, such as the Administrator) reserves the right to request such information, documentation and/or data as is necessary to verify the identity of a prospective investor, any underlying beneficial owner of the investor and/or the source of funds and source of wealth of the investor and/or the ultimate beneficial owner. The Company (and/or its delegates) may also request such identification evidence in respect of a transferee of Investor Shares.

In the event of delay or failure by the prospective investor or transferee to produce any information required for verification purposes, the Administrator may refuse to accept or delay the acceptance of the Application Form, or (as the case may be) to register the relevant transfer of Investor Shares, and in the case of a subscription for Investor Shares, and subject to compliance with the applicable legislation, any funds received will

be returned without interest to the account from which the monies were originally debited.

Where, following receipt of subscription monies and prior to the issuance of Investor Shares, the Administrator is not satisfied with the AML documentation, the money may be held in the account to which it was remitted, and the subscriber will bear all associated risks. The Company has absolute discretion to determine whether, in the light of its AML obligations, it has sufficient documentation in hand to allow the issuing of Investor Shares.

It must also be noted that, in the event that a redemption request is received from an Investor who in the opinion of the Company has failed to submit all the required AML documents, although the redemption will be acted upon, the redemption proceeds cannot be remitted to the Investor until all documents requested have been received or necessary verifications made. The redemption proceeds will be held accordingly, and the Investor will bear all associated risks.

It is a regulatory requirement to report suspicious transactions to the competent authorities, and any relevant data in this regard may need to be transferred to the relevant regulators.

## **Sanctions**

The Company is also subject to the obligations as set out in the National Interest (Enabling Powers) Act (Chapter 365 of the Laws of Malta)(“**NIA**”). In this respect, the Company is required to comply with the sanctions imposed in terms of (i) the United Nation Security Council Resolutions, (ii) the Regulations of the Council of the European Union and (iii) the regulations issued by the Minister of Foreign Affairs in Malta, upon the recommendation of the Sanctions Monitoring Board and of the Attorney General.

[In addition to the above mentioned sanctions, the Company (through the Administrator) also screens prospective investors, Subscribers and persons owning or controlling the prospective Investor and/or Subscriber] against the sanctions imposed by the US Office of Foreign Assets Control (“**OFAC**”) (collectively with the Sanctions imposed by the United Nations, the European Union and the Mister of Foreign Affairs, “**Sanctions Lists**”).

The Company is obliged to refuse to make any redemption payment or distribution to an investor, if the payment of any redemption or distribution moneys to such investor may result in a breach or violation of any applicable anti-money laundering laws or the sanctions imposed by the United Nations Security Council, the Council of the European Union, the Minister of the Foreign Affairs, and/or OFAC.

The Subscriber is advised that, the Company may be obliged, either by law or due to its commitment to comply with any other non-mandatory sanctions, to “freeze the money” of such Subscriber, either by prohibiting additional investments from the subscriber, declining any redemption requests from the subscriber, suspending the payment of redemption proceeds payable to the subscriber, and/or segregating the assets in the account in compliance with governmental regulations. The Subscriber is advised that the above measures may be applied in the event that the Subscriber, the ultimate beneficial owner, and/or any person owning or controlling the Subscriber is a designated person in terms of any of the Sanctions Lists. By subscribing into the Company, the Subscriber consents to such freezing of assets in accordance with the relevant sanctions regime. The Company may also be required to report such action and to disclose the Subscriber’s identity to the Sanctions Monitoring Board or other applicable governmental and regulatory authorities

## Data Protection

In the course of business, the Company and/or any of its delegates and/or service providers may collect, record, store, adapt, transfer and otherwise process information by which prospective investors may be directly or indirectly identified ("personal data"). The Company is a "data controller", within the meaning of Data Protection Legislation, and undertakes to hold any personal information provided by investors in confidence and in accordance with Data Protection Legislation. Notwithstanding the foregoing, the Company may act as joint data controller with the Investment Manager.

Personal data relating to Investors may be handled by data processors appointed by the Company and its or their duly appointed agents and any of their respective related, associated or affiliated companies. Such data processors include the Administrator, the Investment Manager (if applicable) and their delegates, agents or affiliates. These data processors will handle personal data in accordance with applicable Data Protection Legislation.

The Company and/or any of its delegates may process an investor's personal data for any one or more of the following purposes and legal bases:

- (a) Operating the Sub-Funds, including managing and administering an investor's holding in the relevant Sub-Fund and any related accounts on an on-going basis (i.e. for the performance of the Company's contract with the investor);
- (b) To comply with any applicable legal, tax or regulatory obligations, including legal obligations under company law, anti-money laundering legislation, taxation laws and financial services regulations;
- (c) For any other legitimate business interests of the Company or a third party to whom the data is disclosed, where such interests are not overridden by the interests of a data subject, including for statistical analysis (including data profiling) and market research purposes; or
- (d) For any other specific purposes where investors have given their specific consent. Where processing of personal data is based on consent, the investors will have the right to withdraw it at any time.

The Company and/or any of its delegates or service providers may disclose or transfer personal data, whether in Malta or elsewhere (including companies situated in countries outside of the EEA), to third parties, including financial advisers, regulatory bodies, taxation authorities, auditors, technology providers or to a Sub-Fund or the Company's delegates and its or their duly appointed agents and any of their respective related, associated or affiliated companies for the purposes specified above.

Please note that investors' personal data will be retained by the Company for the duration of their investment and otherwise in accordance with the Company's legal obligations including, but not limited to, the Company's record retention policy. In determining appropriate retention periods, the Company shall have regard to the purpose(s) for which it was collected, the prescriptive periods under Maltese law (statutes of limitation) and any statutory obligations to retain information, including anti-money laundering, revenue and tax legislation. The Company will take all reasonable steps to destroy or erase the data from its systems when they are no longer required.

Where specific processing is based on an investor's consent, that investor has the right to withdraw it at any time. Investors have the right to request access to their personal data kept by Company; and the right to rectification or erasure of their data; to restrict or object to processing of their data, and to data portability.

The Company and/or any of its delegates will not transfer personal data to a country outside of the EEA unless that country ensures an adequate level of data protection or

appropriate safeguards are in place. The European Commission has prepared a list of countries that are deemed to provide an adequate level of data protection which, to date, includes Andorra, Argentina, Canada (limited to commercial organisations), Faroe Islands, Guernsey, Israel, Isle of Man, Japan, Jersey, New Zealand, Switzerland, and Uruguay, as providing adequate protection. Further countries may be added to this list by the European Commission at any time. The US is also deemed to provide an adequate level of protection where the US recipient of the data is Privacy Shield-certified. If a third country does not provide an adequate level of data protection, then the Company and/or any of its delegates will rely on the "Model clauses" (which are standardised contractual clauses, approved by the European Commission) or Binding Corporate Rules or one of the other alternative measures provided for in Data Protection Legislation.

Where processing is carried out on behalf of the Company, the Company shall engage a "data processor", within the meaning of Data Protection Legislation, who provides sufficient guarantees to implement appropriate technical and organisational security measures in such a manner that processing meets the requirements of Data Protection Legislation, and ensures the protection of the rights of investors. The Company will enter into a written contract with the data processor which will set out the data processor's specific mandatory obligations laid down in Data Protection Legislation, including to only process personal data on documented instructions from the Company.

As part of the Company's business and ongoing monitoring, the Company may from time to time carry out automated decision-making in relation to investors, including profiling of investors, and this may result in an investor being identified to tax revenue and law enforcement authorities, and the Company terminating its relationship with the investor.

Investors are required to provide their personal data for statutory and contractual purposes. Failure to provide the required data will result in the Company being unable to permit the investor's investment in the Sub-Funds and this may result in the Company terminating its relationship with the investor. Investors have a right to lodge a complaint with the Information and Data Protection Commissioner in Malta if they are unhappy with how the Company is handling their data.

If you have any queries regarding this data protection notice, please contact the Directors at the address provided in the Directory.

- (26) The Subscriber understands and acknowledges that the terms, conditions and warranties in the Prospectus, the Offering Supplement and the Subscription Application (together "the Document") may only be amended if agreed and approved in writing by the Directors. If a Subscriber deems it necessary, for whatever reason, to request amendment of the Document, it must separately notify the Administrator of each requested amendment and the Administrator will take all necessary steps, including seeking approval by both the Investment Manager and the Directors, to determine whether each requested amendment is to be allowed. Unless and until the Subscriber receives such confirmation of acceptance in writing, it is deemed that the existing unamended terms, conditions and warranties apply.
- (27) Legislation currently applicable to the Company and the Administrator requires that, as part of compliance thereto, certain documents must be monitored to

ensure that they are timely and up-to-date. The Subscriber acknowledges that, in order to comply with this requirement, the Administrator and/or the Investment Manager will require that certain documents are delivered by the Subscriber to the Administrator and/or the Investment Manager on a periodic basis. The Administrator and/or the Investment Manager may contact the Subscriber to request such documents, and, by signing the Subscription Application, the Subscriber hereby confirms that it will provide the documents so requested on a timely basis. The Subscriber further acknowledges that failure to provide such documents could result in delays during the redemption process, as monies may not be remitted to the Subscriber until all requested documents are received and approved by the Administrator and/or the Investment Manager.

Further, if subsequent investments are made, the source of wealth/source of funds will need to be re-established, and failure to provide adequate information to the Company and the Administrator could result in delays during the redemption process similar to those outlined in the preceding sentence.

- (28) The Subscriber agrees to provide to the Company in a timely manner any documentation or other information that the Company or its Administrator may request in writing from time to time in connection with the Company's obligations under, and in compliance with, applicable laws and regulations, including without limitation, applicable tax laws of the Company's domicile, the U.S., United Kingdom ("UK") or any other relevant jurisdiction.
- (29) By executing the Subscription Application, the Subscriber agrees to waive any provision under applicable laws and regulations that would prevent or inhibit the Company's compliance with applicable law as described in this paragraph, including but not limited to by preventing either (i) the Subscriber from providing any requested information or documentation, or (ii) the disclosure by the Company and the Administrator of the provided information or documentation to applicable regulatory and/or governmental authorities as required by the applicable laws. In particular, but without limitation, the Subscriber agrees to provide any documentation or other information regarding himself, his Beneficial Owners and Controlling Persons requested by the Company or the Administrator in connection with the U.S. or UK Inter Governmental Agreement's or the Common Reporting Standard (together the AEOI Regulations) and any guidance, relating thereto and published from time to time, as well as any legislation, rules or practices adopted pursuant to any applicable intergovernmental agreement entered into in connection with the implementation of the AEOI Regulations.
- (30) The Subscriber agrees to complete and return, with the application form, the appropriate form(s), as included in the section 'Tax Forms' along with all related documentation, to the Administrator.
- (31) The Subscriber hereby agrees to indemnify and hold harmless the Company and the Administrator from any losses or damages suffered due to incorrect statement or information provided in respect of these matters.

## **APPENDIX I: DETERMINATION OF THE NAV**

The Company shall on each Valuation Day determine the Net Asset Value of each class of shares in the Company, which shall be the value of the Sub-Fund's assets less its liabilities divided by the number of Shares in issue. The Net Asset Value shall be expressed in the Base Currency (the currency in which the Shares of a Sub-Fund are designated or in such other currency as the Directors may determine) as a per Share figure for each class of Shares in issue (rounding down to up to the fourth decimal figure of the relevant Base Currency) and shall be determined for each Dealing Day in accordance with the Articles.

There shall be established a pool of assets for each Sub-Fund in the following manner:

- (i) The proceeds from the issue of Shares representing a Sub-Fund shall be applied in the books of the Company to that Sub-Fund, and the assets and liabilities and income and expenditure attributable thereto shall be applied to such Sub-Fund subject to the provisions hereof;
- (ii) Where any asset is derived from another asset, such derivative asset shall be applied in the books of the Company to the same Sub-Fund as the assets from which it was derived and in each valuation of an asset, the increase or diminution in value shall be applied to the relevant Sub-Fund;
- (iii) Where the Company incurs a liability which relates to any asset of a particular Sub-Fund or to any action taken in connection with an asset of a particular Sub-Fund, such a liability shall be allocated to the relevant Sub-Fund;
- (iv) Where an asset or a liability of the Company cannot be considered as being attributable to a particular Sub-Fund, such asset or liability, subject to the approval of the Custodian, shall be allocated to all the Company pro-rata to the Net Asset Value of each Sub-Fund;

Provided that all liabilities irrespective of the Sub-Fund to which they are attributable, shall (in the event of a winding up of the Company), unless otherwise agreed upon with the creditors, be borne by the Company as a whole and provided further that when issuing a class of Shares in regard to any Sub-Fund, the Investment Manager may allocate commission, duties and charges and ongoing expenses on a basis which is different from that which applies in the case of Shares in other Sub-Funds.

## **APPENDIX II: VALUATION OF ASSETS**

The Articles provide that the value of the assets comprised in a Sub-Fund shall be ascertained on the following basis:

Subject to the provisions of Article 0, the value of the assets comprised in a Sub-Fund shall be ascertained on the following basis:

### *Quoted Investments*

- a) the value of any Investment quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market shall be calculated in the following manner:
- by reference to the price appearing to the Directors to be the latest available dealing price or (if bid and offered quotations are made) the latest available middle quotation on such Approved Regulated Market; and
  - if an Investment is quoted, listed or normally dealt in, on or under the rules of more than one Approved Regulated Market, the Directors may adopt the price or, as the case may be, the middle quotation on the Approved Regulated Market which, in their opinion, provides the principal market for such Investment; and
  - in the case of any Investment which is quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market but in respect of which, for any reason:
    - prices on that Approved Regulated Market may not be available at any relevant time; or
    - the value thereof based on the said prices or quotations as described in paragraphs above do not establish, in the opinion of the Directors, the fair value of any Investment,

then the value thereof shall be determined by such professional person as may be appointed by the Directors for such purpose or generally in relation to some or all the Investments of the Company and for such time as may be determined by the Directors. Details of any selection criteria for the appointment of a professional person as aforesaid may be set out in the Prospectus or relevant Supplement.

### *Unquoted Investments*

- b) the value of any Investment which is not quoted, listed or normally dealt in, on or under the rules of an Approved Regulated Market shall be the initial value thereof ascertained as hereinafter provided or the value thereof as assessed on the latest valuation thereof made in accordance with the provisions hereinafter contained. For this purpose:
- the initial value of such an Investment shall be the amount expended by the Sub-Fund in the acquisition thereof (including in each case the amount of the stamp duties, commissions and other expenses incurred in the acquisition thereof and the vesting thereof in the Company); or
  - the Directors may at any time cause a valuation to be made of any such Investment at a fair market value by such competent person as may be appointed for such purpose by the Directors. Details of any selection criteria for the appointment of a competent person as aforesaid may be set out in the Prospectus or relevant Supplement.

### *Units in a Collective Investment Scheme*

c) the value of each unit or share in any collective investment scheme which provides for the units or shares therein to be realised at any time at net asset value shall be the last published net asset value per unit or share or (if bid and offer prices are published) at a price midway between the last published bid and offer prices applicable to the Sub-Fund.

*Cash, deposits and similar property*

d) cash, deposits and similar property shall be valued at their face value (together with accrued interest).

*Other Investments and General*

e) other Investments shall be valued in such manner and at such time or times as the Directors shall from time to time determine.

f) where any Investment has been agreed to be acquired or realised but such acquisition or disposal has not been completed, such Investment shall be included or excluded, as the case may be, and the gross acquisition or net disposal consideration included or excluded as the Directors shall from time to time determine.

g) there shall be included in the assets an amount equal to all such costs, charges, fees and expenses as the Directors may have determined to amortise less the amount thereof which has previously been or is then to be written off.

h) where an amount in one currency is required to be converted into another currency, the Directors may effect such conversion using the latest available rates of exchange as the Directors shall determine at the relevant time except where otherwise specifically provided therein.

i) where the current price of an Investment is quoted ex dividend or interest, there shall be added to the assets a sum representing the amount of such dividend receivable by the Sub-Fund but not yet received, and there shall be taken into account interest accrued on interest-bearing Investments up to the date at which the valuation is made unless such interest is included in the price or quotation referred to in paragraph a) above.

j) there shall be added to the Investments the amount of income (if any) available for allocation in respect of the last preceding Accounting Period but in respect of which no allocation has been made.

k) any amount of dividend which has been declared by the Company but not paid will continue to be treated as an asset until it is actually paid.

l) financial derivative instruments shall be valued on the basis of the prices provided by the counterparty to the OTC financial derivative instrument.

*Deductions*

m) there shall be deducted from the assets the total amount (whether actual or estimated by the Directors) of any other liabilities properly payable including tax (if any) as in the estimate of the Directors is chargeable in respect of the

current or previous Accounting Period, outstanding borrowings, and accrued interest on borrowings (if any), but excluding liabilities taken into account in terms of sub-paragraph n) below;

n) where, in consequence of any notice or repurchase request duly given, a reduction of the Sub-Fund by the cancellation of Shares has been or is to be effected but payment in respect of such reduction has not been completed, the Shares in question shall be deemed not to be in issue and any amount payable in cash or Investments out of the capital of the Sub-Fund in pursuance of such reduction shall be deducted.

For the purposes of this Article:

- o) monies payable to the Company in respect of the allotment or issue of Shares shall, until receipt on the Settlement Date, be deemed to be an asset of the relevant Sub-Fund;
- p) monies payable by the Company as a result of the cancellation of allotments or issues or on the compulsory repurchase or transfer of Shares or on repurchase of Shares shall, until settlement is made, be deemed to be a liability of the relevant Sub-Fund; and
- q) monies due to be transferred as a result of an exchange of Shares from one class to another in terms of Article **Error! Reference source not found.** shall, until the relevant Settlement Date, be deemed to be a liability of the first class and an asset of the second class.

Notwithstanding anything contained in Article 0 above, the Directors may, after consultation with the Custodian, adjust the value of any Investment or other property or permit some other method of valuation to be used if they consider that in the circumstances (including without limitation a material volume of subscriptions or requests for repurchase of Shares in the Sub-Fund; or the marketability of the Investments or other property; or such other circumstances as the Directors deem appropriate) such adjustment or other method of valuation should be adopted to reflect more fairly the value of such Investment or other property.

The Directors shall not be under any liability by reason of the fact that a value reasonably believed by them to be the correct value of any Investment may subsequently be found not to be correct.

Without prejudice to its general powers to delegate its functions under these Articles, the Company may delegate any of its functions in relation to the calculation of Net Asset Value to the Investment Manager, the Administrator or to any other duly authorised person. In the absence of wilful misconduct or manifest error, every decision taken by the Company, the Investment Manager, the Administrator or any duly authorised person in calculating the Net Asset Value shall be final and binding on the Company and on present, past or future Members.

The Company, the Investment Manager, the Administrator and/or any other delegate shall not be responsible for any error in calculating the value of assets, if the Company, the Investment Manager, the Administrator or other delegate has acted in good faith when making such calculations.

### **APPENDIX III: QUALIFYING SHAREHOLDERS**

The Articles provide that:

1. No Shares shall be allotted or issued to or transferred to or be beneficially owned by any U.S. Person. Each subscriber for Shares shall be required to certify that s/he is not acquiring such Shares on behalf of, or for the benefit of, a U.S. Person and that such subscriber will not sell nor offer to sell or transfer, pledge or otherwise assign such Shares in the United States or to, or for the benefit of, a U.S. Person. No transfer of Shares shall be recorded on the Register unless: -

(ii) The purchaser shall certify to the Company that he/she is not acquiring such Shares on behalf of or for the benefit of, a U.S. Person.

However, the Directors have the discretion to accept any U.S. Persons who are in the process of obtaining a Maltese citizenship.

2. The Directors shall have power (but shall not be under any duty) to impose such restrictions (other than a restriction on transfer which is not expressly referred to in the Articles) as they may think necessary for the purpose of ensuring that no Shares are acquired or held by any person as described in paragraph 1 above or paragraph 5 below.

3 The Directors may upon an application for Shares or on a transfer or transmission of Shares or at any other time and from time to time require such evidence or declarations to be furnished to them in connection with the matters stated in paragraphs 1 and 5 as they shall in their discretion deem sufficient.

4. If a person becomes aware that he is holding or owning Shares in contravention of the Articles he shall forthwith in writing request the Company to repurchase such Shares in accordance with the Articles or shall transfer such Shares to a person duly qualified to hold the same unless he has already received a notice under paragraph 5 below.

5. If it shall come to the notice of the Directors or if the Directors shall have reason to believe that any Shares are owned directly or beneficially by: -

(i) any person in breach of any law or requirement of any country or government authority or by virtue of which such person is not qualified to hold such Shares; or

(ii) any person who is, or has acquired such Shares on behalf of or for the benefit of, a U.S. Person; or

(iii) any person or persons in circumstances which, (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other person or persons whether connected or not, or any other circumstances appearing to the Directors to be relevant) in the opinion of the Directors might result in the Company or any Shareholder incurring any liability to taxation or suffering pecuniary or administrative disadvantages which the Company or such Shareholder might not otherwise have incurred or suffered; or

(iv) any person who does not supply any of the information or declarations required hereunder within seven days of a request to do so being sent by the Directors;

The Directors shall be entitled to give notice (in such form as the Directors deem appropriate) to such person or persons requiring him or them to transfer such Shares to a person who is qualified or entitled to own the same or to request in writing the repurchase of such Shares in accordance with the Articles.

6. If any person upon whom such a notice is served as aforesaid does not within 30 days of the date of such notice transfer such Shares or request in writing the Company to repurchase the Shares he shall be deemed forthwith upon the expiration of 30 days to have so requested the repurchase of all of his Shares which are the subject of such notice whereupon he shall be bound to deliver the Share certificate or confirmation of ownership in respect of the Shares to the Company forthwith and the Directors shall be entitled to appoint any person to execute such documents as may be required for the purposes of the repurchase. The deemed request to repurchase the Shares may not be withdrawn, notwithstanding that the determination of the Net Asset Value for such Shares may have been suspended.

7. Subject to any requisite official consents first having been obtained, settlement shall be effected by depositing the repurchase monies or proceeds of sale in a bank for payment to the person entitled upon such consents being obtained and, if relevant, against production of such evidence of ownership as the Directors may require representing the Shares previously held by such person, together with the repurchase request duly signed. Upon deposit of such repurchase monies as aforesaid such person shall have no further interest in such Shares or any of them or any claim in respect thereof except the right to claim without recourse to the Company the repurchase monies so deposited (without interest) upon such consents being obtained and against the production of the said evidence of ownership with the repurchase request duly signed.

8. The Directors may resolve that the provisions of the foregoing paragraphs shall be applied, in whole or in part, for a defined period or otherwise.
