Share Class	ISIN Number	Currency	Fund Inception Date
Vilhena European Multi Manager Fund	MT0000072638	Euro	22 April 2004

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the Fund has been managed in the past. The value of the investment may fall as well as rise and currency fluctuation may also affect the value of the investment. Any initial charges that may apply may lower the amount invested and the amount received upon redemptions. **The Bar chart presented in this document show the Fund’s performance as the percentage loss or gain per year over the last 10 years.**

Performance is shown after the deduction of all ongoing charges. Any entry and exit charges are excluded from the calculation.

The performance is reported in the Base Currency expressed as a percentage change of the net asset value of the Share Class at each year’s end and past performance has been calculated on the basis that any distributable income of the Fund has been reinvested.
